

CARES 2009 Workshop Example Installation

The file "CARES 2009 Workshop Examples.exe" is a self-extracting zip file containing the following 58 files and their respective folders. Double-clicking the file will open a dialog box. Make sure the **Unzip to folder** is C:\ and the **Overwrite files without prompting** is unchecked. Then click the **Unzip** button. You should receive a message stating 58 files were successfully extracted. If by chance the file already exists, you will receive a message whether you want to overwrite the existing file.
